

**COVID-19  
Pandemic  
(Coronavirus)**

To all Customers and Suppliers of DI Office Design:

The health of our customers, suppliers and staff remains of paramount importance to us.

As the Victorian Government and Chief Health Officer continue to update the COVID-19 directives, we recommend that for all the latest information on the current COVIDSafe Settings and any restrictions, please refer to the [Vic.Gov.Au](https://www.vic.gov.au) website.

We, here at DI Office Design, have returned to our normal working model:

- The office & warehouse are open and operational.
- Delivery activities have returned to normal.
- Email and phone lines are monitored during normal business hours.

As part of COVIDSafe principles for all businesses, our staff will continue to practice physical distancing where possible and always practice good hygiene. (Our sales and delivery staff will carry face masks when onsite at our customers locations should they be required as part of the facilities mask wearing rules.)

DI Office Design will always operate in full compliance with the Victorian Government recommendations and requirements. We continue to follow the [COVIDSafe Settings | Coronavirus Victoria](#) and are ready to act quickly should settings change at short notice.

We hope you, our customers and suppliers, and your families stay well.

Thank you for your continued support,

DI Office Design Management
